Occupational and Environmental Medicine, London SW3 6LR

Faculty: Professor Paul Cullinan, Dr Jo Szram

## LUNG FUNCTION TESTING IN THE WORKPLACE – INTERMEDIATE LEVEL

Workshop held twice a year on the role of lung function testing in the workplace.  
The day will cover:

- Interpretation of spirometry; what is abnormal?
- Longitudinal changes and individual variation in lung function
- The role of spirometry in health surveillance
- The application of spirometry and other terms of lung function in pre-placement screening and fitness to work
- Risk assessment of people with asthma

Each topic will contain practical examples and ample opportunity for discussion. Suitable for all Occupational Health professionals with a particular interest in spirometry and lung function testing, and their implications in the workplace. Please note that the number of places available is limited.

Please note that this Workshop will assume a working knowledge of practical spirometry

Date: Friday 16 November 2012, 10am - 4.30pm

Cost: £150

Venue: National Heart and Lung Institute, Dovehouse Street, London SW3 6LY
